REPORT

OF THE

BOARD OF ADMINISTRATORS OF THE CHARITY HOSPITAL.

For the Year ending December 31st, 1881.

To his Excellency, S. D. McEnery, Governor of the State of Louisiana, Ex-Officio President of the Board of Administrators of the Charity Hospital :

RESPECTED SIR—Before entering into our formal report allow us both individually and collectively to express our sincere regrets at the death of our lamented President—the late Gov. L. A. Wiltz. In his death this Hospital has sustained an irreparable loss ; and the State at large one of its brightest minds, peculiarly so from his being to the manor born. We beg to submit to your Excellency the subjoined annual report of the management of the Charity Hospital during the past year, ending December 31, 1881.

We would call your attention to this fact—that strict economy in all things has been our constant aim, without interfering with the general usefulness of this noble charity, in the relief and proper care of the indigent sick, confided to us.

In proof of the above we beg to call your especial attention to the detailed reports of the House Surgeon and other officers of the Hospital, accompanying this.

We sincerely hope that no material diminution of the revenues of the Hospital will occur during this current year, for such diminution would necessarily require corresponding retrenchment in our disbursements, and a proportionate curtailment of the benefits expected from the Hospital.

In this connection we beg to state that the Board of Administrators sincerely regrets a misunderstanding which arose between the *Board* and the Sisters of Charity—who have so long and so ably managed the details of our institution—and whose valuable aid no member of the Board for one moment failed to recognize and appreciate.

The Board knowing the growing demand for skilled and educated nurses, in our *City* and *State*—and seeing the great advantages already obtained in Europe, and all the Northern and some of the Western cities of our Union, by the organization of Training Schools for the education of nurses, at once thought of inaugurating a similar school here, and necessarily the wards of the Charity Hospital as the proper field for such instruction suggested itself.

With the above *sole object* in view, and feeling confident that an appreciative community would approve so laudable an object, the Board endeavored to introduce such a school in the Hospital.

The Board never intended or thought that their motives would be questioned, or in any way be misinterpreted, but the result showed how much they were mistaken.

The misrepresentations and open assertions, that this was only a move towards undermining the authority of the Sisters of Charity, and ultimately to result in their services being dispensed with in the Hospital, no denial on the part of the Board, nor reiterated disclaimers against any such purpose were credited but only engendered more bitter and widespread opposition.

The Board without abandoning their first conviction that such a school could be established and would never under proper management interfere in any manner with the Sisters of Charity,

and realizing that they had the *power* to introduce the school, preferred abandoning all such grounds.

The Board of Administrators already feel that they can proudly point to our present corps of resident students, whose acknowledged intelligence, devotion to duty, and rapid elevation in professional standing pay a just compliment to the beneficial workings of our rigidly enforced system of competitive examinations.

The Board has also to acknowledge the receipt of \$10,000, the liberal bequest of the late John Burnside, also \$500 the bequest of the late Charles E. Schmidt, the above bequest equally appreciated, the relative discrepancy in amount fully explained by their widely different financial ability, the objects being equally good.

The Board hopes at some future time, to make some appropriate *memorial* acknowledgement to the memory of these good men.

The Board has not relinquished their cherished idea of establishing children's wards in our Hospital and increasing the provision for our colored population, and only waits for means and opportunity to effect the same.

Our Hospital Library is increasing rapidly, and is already a most valuable adjunct to our usefulness as a school.

The Hospital grounds, though improved, are not yet completed and will require some years to be what they are intended.

We hope that this report will meet with your approval and approbation.

Respectfully,

DR. DAN'L C. HOLLIDAY,

Vice-President Board of Administrators

HOUSE SURGEON'S REPORT.

Dr. D. C. Holliday, Vice-President of the Board of Administrators of the Charity Hospital :

SIR—In transmitting this my report for the year ending December 31, 1881, I beg to again call your attention to the requirements of the Hospital as recited in my report to you for the year 1880.

It is to be regretted that our means have not enabled us to carry out all the improvements contemplated.

In order to meet the increased demand for admission by the colored population, I have found it necessary to assign another medical ward to the treatment of that class of patients.

Referring to the Medical Library, established a year ago, I am happy to say that the collection of works and periodicals has greatly increased ; in alluding to this subject I desire to return our thanks for the many donations received, a list of the donors will be found in this report.

As you will perceive by the report of the Pathologist, the house officers and the members of the staff are now furnished with reliable information respecting the diseases against which we are daily battling. As a means of improving the treatment of patients and of perfecting medical education, the value of the department cannot be over-estimated.

As soon as the condition of our finances will permit, the Hospital should be improved in the following essentials :

1. The immediate erection or purchase of an additional building to remedy the crowded condition of the wards wherein

patients at times have scarcely one-half the superficial and cubic space of air exacted by sanitary science. I hope that the Board of Administrators will see proper to apply the liberal bequest of the late John Burnside to this most important requirement.

2. A system of paid and responsible nurses is very much needed in the male wards; the establishing of such a corps would insure much better attention to the patients than the present system of unpaid nurses.

3. Our privies which permit water and fœcal matter to run from the vaults into the street gutters are detrimental to public health, and we have been called upon by the city authorities and Board of Health to abate the abominable nuisance; this can only be done, as in the case of the large hotels and the customhouse, by laying a pipe to the river with the necessary force pumps, etc., etc.

4. The ventilation of the main building should be improved.

Respectfully submitted,

A. W. DEROALDES,

House Surgeon

TREASURER'S REPORT.

CHARITY HOSPITAL.

NEW ORLEANS, January 1, 1882.

To the Board of Administrators of the Charity Hospital :

GENTLEMEN—Herewith I have the honor to lay before you a complete statement of the cash receipts and expenditures of your administration for year 1881. The loss by discount on the sale of warrants received from the State continues to increase, and there is every reason to believe that during the coming year it will be still greater. I would suggest that at the next meeting of the Legislature, that we have an act passed, placing our warrants on the same footing as constitutional warrants, that is, receivable for taxes as was the case some years past. Our current monthly expenses are 7,000 dollars, and this amount is absolutely necessary to pay the actual running expenses of the institution. All required improvements referred to in the House Surgeon's report can not be made unless our revenues are increased.

Very Respectfully,

JOHN H. PIKE, M. D. P.

ERRATA.

- Page III, second line from top, instead of "October 1880, to 1881," read "October, 1880, to April, 1881."
- Page III, third line from bottom, instead of "Jno. B. Shelmire," read "Jesse B. Shelmire."
- Page III, bottom line, instead of "J. B. Lawrason" read "G. B. Lawrason."
- Page 5, fourteenth line from bottom, column Dec., instead of "3," read "11."
- Page 7, line Blacksmiths, column C, instead of "—," read "1."
- Page 7, line Unknown, column C, instead of "19," read "17."
- Page 7, line Waiters, column C, instead of "—," read "4."
- Page 9, tenth line from top, Nomenclature column, instead of "Carcimonata," read "Carcinoma."
- Page 11, first line from top, Nomenclature column, instead of "Diseaseses," read "Diseases."
- Page 11, fourth line from top, Nomenclature column, instead of "Agitans," read "Agitans."
- Page 11, fourteenth line from top, Nomenclature column, instead of "Hemecrania," read "Hemicrania."
- Page 12, seventeenth line from bottom, Nomenclature column, instead of "Cerebral Arterus," read "Middle Cerebral Artery."
- Page 12, eleventh line from bottom, Nomenclature column, instead of "Innomerrata," read "Innominate."
- Page 12, eighth line from bottom, Nomenclature column, instead of "Lymphatic Veins," read "Lymphatics and Veins."
- Page 12, seventh line from bottom, Nomenclature column, instead of "Varicose," read "Varicose Veins."
- Page 12, eighth line from bottom, Nomenclature column, instead of "Lymphangetis," read "Lymphangitis."
- Page 13, fourteenth line from top, Nomenclature column, instead of "Pneumoma," read "Pneumonia."
- Page 13, fourteenth line from top, Nomenclature column, instead of "Croupus lobar," read "Croupous, lobar."
- Page 15, ninth line from bottom, Nomenclature column, instead of "Interstitial," read "Intertitial."
- Page 16, second line from top, Nomenclature column, instead of "Prostrate," read "Prostate."
- Page 16, tenth line from top, Nomenclature column, instead of "Perinial," read "Perineal."
- Page 17, eighth line from top, Nomenclature column, instead of "Polypsus," read "Polypus."
- Page 17, fourteenth line from top, Nomenclature column, instead of "Procedentia," read "Procidencia."
- Page 17, eighteenth line from top, Nomenclature column, instead of "Rectro-Vaginal," read "Recto-Vaginal."
- Page 17, fifth line from bottom, Nomenclature column, instead of "Peseostitis" read "Periostitis."
- Page 18, sixth line from top, Nomenclature column, instead of "Clavicie," read "Clavicle."
- Page 18, fourteenth line from bottom, Nomenclature column, instead of "Bursae," read "Bursae."
- Page 19, fifteenth line from bottom, Nomenclature column, instead of "Phthereasis," read "Phthiriasis."
- Page 19, third line from bottom, Nomenclature column, instead of "Furnuncles," read "Furuncles."
- Page 19, bottom line, Nomenclature column, instead of "Hyperedrosis," read "Hyperidrosis."
- Page 19, bottom line, Nomenclature column, instead of "Faetida," read "Fœtida."
- Page 21, ninth line from top, Nomenclature column, instead of "Parietal," read "Parietal."
- Page 24, twenty-fourth line from top, Nomenclature column, instead of "Collis," read "Colle's."
- Page 26, third line from top, Nomenclature column, instead of "Malleole," read "Malleoli."
- Page 26, seventeenth line from bottom, Nomenclature column, instead of "Talipis Varus," read "Talipes Varus."
- Page 26, fourteenth line from bottom, Nomenclature column, instead of "Parisites" read "Parasites."
- Page 26, foot note, Nomenclature column, instead of "Nephrites," read "Nephritis."
- Page 28, second line from top, Nomenclature column, instead of "Entropion," read "Entropion."
- Page 28, fourth line from top, Nomenclature column, instead of "Trichiases," read "Trichiasis."
- Page 28, eighth and ninth line from top, Nomenclature column, instead of "Conjunctivites" read "Conjunctivitis."
- Page 28, tenth and twelfth line from bottom, Nomenclature column, instead of "Ophthalmia," read "Ophthalmia."

ERRATA—Continued.

- Page 28, eleventh line from bottom, Nomenclature column, instead of "Prurulent Ophthalmia," read "Purulent Ophthalmia."
- Page 28, twenty-second line from bottom, Nomenclature column, instead of "Irido-Choroiditis," read "Irido-Choroiditis."
- Page 28, twenty-third line from bottom, Nomenclature column, instead of "Retina-Choroiditis," read "Refino-Choroiditis."
- Page 29, third line from bottom, Operation column, instead of "Anterior Tibial Perennial," read "Anterior Tibial and Peroneal."
- Page 30, ninth, tenth and eleventh line from bottom, Operation column, instead of "Phalanx," read "Phalanges."
- Page 31, ninth line from bottom, Diagnosis column, instead of "Gunshot," read "Gunshot."
- Page 32, second line from top, Diagnosis column, instead of "Vesical Abscess in," read "Vesical Calculus and Abscess in."
- Page 32, eighth line from top, Diagnosis column, instead of "Fistula," read "Fistula."
- Page 32, seventh line from bottom, Diagnosis column, instead of "Urethro-Perennial," read "Urethro-Perineal."
- Page 32, sixth line from bottom, Diagnosis column, instead of "Peri-Cystic," read "Peri-Cystic."
- Page 33, second line from top, Diagnosis column, instead of "39 white and 34 colored," read "39 (white) and 34 (colored)."
- Page 33, third line from bottom, Diagnosis column, instead of "Forcep," read "Forceps."
- Page 34, General Diseases, Patients Died, instead of "76," read "77."
- Page 35, tenth line from bottom, instead of "Microscopies for," read "Necroscopies for."
- Page 35, eleventh line from bottom, instead of "Specimen," read "Specimens."
- Table of Obstetrical Cases, Ward 39, line third from top, instead of "P. C. Michinard," read "P. E. Archinard."
